

Ph.D. stipend in High Energy Heavy Ion Research

Place: The Niels Bohr Institute,
University of Copenhagen.

Contents: The HEHI group studies Relativistic Heavy Ion Collisions at the RHIC accelerator with the BRAHMS detector and develops detectors for the coming ALICE experiment at LHC, CERN. The project must connect to current theory.

Employment: The stipend is for 3 years from July 1, 2001, and is sponsored by the European Graduate College "Complex Systems of Hadrons and Nuclei".

Deadline for applications: June 15, 2001,
at noon.

Full announcement: see
