Second Circular
CALL FOR REGISTRATION AND ABSTRACTS

Dear
Nuclear Physics colleague,

As a member of the worldwide Nuclear Physics community you are cordially invited to register for and submit abstracts to the International Nuclear Physics Conference, INPC2004, June 27 – July 2, 2004 in Göteborg, Sweden.

INPC2004 takes place in the Swedish Exhibition & Congress Centre in the heart of Göteborg on the scenic Swedish West Coast during a time of the year with almost 24 hours daylight.

The coming International Nuclear Physics Conference, INPC2004, is the 22nd in the series of triennial conferences since the start in Chicago 1951. Aiming to satisfy both those who prefer a broad palette of overview talks and those who give priority to any of the specific sub fields of modern nuclear physics the morning sessions will traditionally offer plenary talks while the afternoons will be devoted to six parallel topical conferences.

Please find further details about the scientific program, registration procedure, accommodation, submission of abstracts, social program, tourism, conference dinner, etc. on the INPC2004 website: <http://www.inpc2004.se>

Important dates
On-line registration: January 15 – May 31, 2004
On-line submission of abstracts: January 21 – March 31, 2004

The INPC2004 is hosted by the Subatomic Physics Group at Chalmers University of Technology and Göteborg University and organized jointly by all Nuclear Physics departments at universities in the Nordic countries Denmark, Finland, Norway and Sweden.

Looking forward seeing you in Göteborg this summer.
Björn Jonson, Göran Nyman, Mikhail Zhukov
Organizers
